

DISCLAIMER

This publication is intended for healthcare professionals. Because of rapid advances in medical science, any information or advice on dosages, procedures or diagnoses should be independently verified by the reader. This publication contains information obtained from a wide variety of original sources and is subject to change without notice. Any links to external websites are provided as a courtesy. Trade names, trademarks and similar terms, even if they are not identified as such, are used in this publication only for information and not for infringement nor for promotional purposes.
